

# Provider Update

January 25, 2022

DOH Deputy Secretary Laura C. Parajón, M.D., M.P.H  
Infectious Disease Bureau Chief Dan Burke  
NW Regional Health Officer Miranda Durham, M.D.

# NM DOH Mission

*To ensure health equity, we work with our partners to promote health and well-being, and improve health outcomes for all people in New Mexico.*

## Goals

**We expand equitable access** to services for all New Mexicans

**We ensure safety** in New Mexico healthcare environments

**We improve health status** for all New Mexicans

**We support each other** by promoting an environment of mutual respect, trust, open communication, and needed resources for staff to serve New Mexicans and to grow and reach their professional goals

# COVID-19 Overview

# COMMUNITY TRANSMISSION ACROSS THE USA

Community Transmission in US by County

	Total	Percent	% Change
High	3215	99.78%	0.22%
Substantial	1	0.03%	-0.06%
Moderate	0	0%	0%

# NM DOH UPDATES

## **POLICIES FOR THE PREVENTION AND CONTROL OF COVID-19 IN NEW MEXICO**

**January 25, 2022**

**Note: These policies are based on the best scientific information available as of the date above. Policies will be updated as new information becomes available.**

## Quarantine Periods for COVID-19

Quarantine if you have close contact with an infected person:

For Asymptomatic Close Contacts	Quarantine Period
1. Is boosted 2. Is fully vaccinated but not yet eligible for booster	No quarantine, wear a well-fitting mask around others for 10 days
3. Not yet fully vaccinated 4. Completed mRNA series >5 months ago or J&J >2 months ago 5. Not vaccinated	Quarantine for 5 days, then wear a mask around others an additional 5 days
6. Student/Staff in T2S 7. Student/Staff in K-12 school	Students and staff in T2S must community quarantine for 5 days, then wear a mask for an additional 5 days. If not in T2S, must fully quarantine for 5 days and wear a mask for an additional 5 days.
8. Resident in LTCF or assisted living facility 9. Hospital inpatient 10. NM Correctional Dept inmates	10 day quarantine required even if vaccinated
11. Resident other residential congregate care facility (i.e. shelter, jail, group home)	10 day quarantine recommended even if vaccinated
12. Health Care Workers	<a href="#">Interim Guidance for Managing Healthcare Personnel with SARS-CoV-2 Infection or Exposure to SARS-CoV-2   CDC</a>

If you become symptomatic you must immediately isolate and get tested.

A negative COVID-19 test should not be used to end quarantine early.

[EPI-COVID19-Containment-Policies-1.13.2022.pdf \(nmhealth.org\)](#)

# Vaccine Updates

Pfizer announced today:

- Initiation of a clinical study to evaluate the safety, tolerability and immunogenicity of an Omicron-based vaccine candidate in healthy adults 18 through 55 years of age.
- The study will have three cohorts examining different regimens of the current Pfizer-BioNTech COVID-19 vaccine or an Omicron-based vaccine.
- The study will draw upon some participants from the companies' [Phase 3](#) COVID-19 booster study.

# Vaccine Updates

- Boosters are now due for the first immune compromised people to get the additional primary dose (Aug 13)
- **“Up to date”** means a person has received all recommended COVID-19 vaccines, including any booster dose(s) when eligible.
- **Fully vaccinated** means a person has received their primary series COVID-19 vaccines
- Pfizer for kids 6 months - 4 year olds

<https://www.cdc.gov/coronavirus/2019-ncov/vaccines/stay-up-to-date.html>

# Testing Options in New Mexico

- **NM COVID-19 Test Site Directory:** [FindaTestNM.org](https://FindaTestNM.org)
- **Symptomatic Testing:** If you have symptoms of COVID, you can find PCR testing at pharmacies, Vault, Curative, local hospitals, public health offices, clinics
- **Screening/Surveillance testing:** If your employer requires screening testing, and you are an employee not up to date on vaccines: Rapid Ag testing is recommended
- **Close Contact/Exposure Testing:** If possible, purchase rapid antigen home test at pharmacies; if you have insurance, that should cover cost of rapid antigen home testing;
- **Federal Program;** Find them for free through [covidtests.gov](https://covidtests.gov), and select locations in counties

# Home test program

**Goal: distribute 1 Million tests every 2 weeks**

## PLAN:

- first 1 million tests distributed to high SVI zip codes
- next 1 million tests to be distributed to counties pro-rata
- Home test page: [Self Test Overview | NMDOH - Coronavirus Updates \(nmhealth.org\)](#)

# Bulletin from San Juan County

COVID Test Kit Agencies SJC .xlsx  
20 KB

Distribution to over 40 locations:

- Share in several locations in the city
- Sobering centers
- Various shelters
- Cancer center
- Non-profit working with people with special needs
- Bloomfield fire/police

# Project ACT (Access Covid Tests)

**In partnership with Rockefeller Foundation**

- Tentative implementation date  
- 1/28/22
- High SVI Communities
- Mail order program for home test kits
- 175,000 tests (distributed in packs of 5)

# Prescribing Oral Therapeutics

- Include on prescription: date of symptom onset and OMASS score
- **OMASS of 3** needed for prescription of Paxlovid and Sotrovimab
- **OMASS of 1** for Molnupiravir
- Check for any drug interactions
- Prescription goes to:

*Community, A Walgreens Pharmacy*  
933 San Mateo Blvd NE Suite 501,  
Albuquerque, NM 87108

Phone: 505-313-8080  
Fax: 505-313-8082

## FDA Fact sheet for Patients, parents, and caregivers

---

Fact Sheet for Patients And Caregivers  
Emergency Use Authorization (EUA) Of Molnupiravir For Coronavirus Disease 2019 (COVID-19)

What is the most important information I should know about molnupiravir?

Molnupiravir may cause serious side effects, including:

- **Molnupiravir may cause harm to your unborn baby. It is not known if molnupiravir will harm your baby if you take molnupiravir during pregnancy.**
  - Molnupiravir is not recommended for use in pregnancy.
  - Molnupiravir has not been studied in pregnancy. Molnupiravir was studied in pregnant animals only. When molnupiravir was given to pregnant animals, molnupiravir caused harm to their unborn babies.
  - You and your healthcare provider may decide that you should take molnupiravir during pregnancy if there are no other COVID-19 treatment options authorized by the FDA that are accessible or clinically appropriate for you.
  - If you and your healthcare provider decide that you should take molnupiravir during pregnancy, you and your healthcare provider should discuss the known and potential benefits and the potential risks of taking molnupiravir during pregnancy.

[https://www.fda.gov/media/155055/  
download?ftag=MSF0951a18](https://www.fda.gov/media/155055/download?ftag=MSF0951a18)

# REMDESIVIR

- Recently FDA approved for outpatient treatment.
- FDA approval facilitates reimbursement
- Removes the manufacturer limit to hospitals
- Outpatient providers can now order and set up Remdesivir clinics.
- Given IV - daily infusion for 3 days

# Participating Pharmacies

- Due to very limited supply, there will be one pharmacy partner initially, Walgreens.
- Patients will have their prescriptions overnighted to their home. A few locations in the state will have in-store inventory available for same-day pick up.
- For a current list of participating pharmacies, check <https://cv.nmhealth.org/providers/covid-19-oral-therapeutics-information-for-providers/>

Prescriptions should be sent to:

Community, A Walgreens Pharmacy  
933 San Mateo Blvd NE Suite 501,  
Albuquerque, NM 87108

Monday thru Friday from 8:30am to 5:pm

*(Weekend Prescriptions Friday 4pm thru Monday 8am need to be sent to a location with store supplies. Please see the table below.)*

Phone: 505-313-8080

Fax: 505-313-8082

*Prescriptions will be sent via overnight mail across the state directly to the patient's home or an approved alternate pick up location.*

**Prescribers should note the date of symptom onset on the prescription. This information is critical for pharmacists to ensure the patient receives their prescription within the treatment window.**

**\*\*\* If you are picking up a prescription, please use drive thru to protect pharmacy staff. \*\*\***

**Initial locations with In-store supplies of Paxlovid:**

Name	Address	Paxlovid	Contact Info
WALGREENS 6587	9700 MENAUL BLVD NE, ALBUQUERQUE, NM 87112	In Stock	P: (505) 299 - 9541

<https://cv.nmhealth.org/providers/covid-19-oral-therapeutics-information-for-providers/>

# Billing

- The medication is paid for by the federal government.
- The pharmacy will bill the dispensing fees to patient's insurance. However, patients who are uninsured will not be turned away.
- Uninsured and underinsured patients may have their fees billed through the HRSA COVID-19 Cares Program or the HRSA COVID-19 Coverage Assistance Fund. For more information, please visit [hrsa.gov/coviduninsuredclaim](https://hrsa.gov/coviduninsuredclaim)

# 5-Day Quarantine and Isolation Guidelines

[CDC COVID-19 Quarantine and Isolation Guidelines](#)

# If you have symptoms of COVID

## Don't wait, isolate

# If have Symptoms and No Test is Available: Stay Home for 5 Days, Wear a Mask for 5 Days

**Day 0** =  
Day you  
Start with  
Symptoms

Stay Home for Five Days				
Day 1	Day 2	Day 3	Day 4	Day 5
				
Wear a mask around others for 5 more days				
Day 6	Day 7	Day 8	Day 9	Day 10
				

# If You Test Positive for COVID:

## Stay Home for 5 Days, Wear a Mask for 5 Days

**Day 0 =**  
Day you  
Test  
Positive

### Stay Home for Five Days

**Day 1**

**Day 2**

**Day 3**

**Day 4**

**Day 5**

### Wear a mask around others for 5 more days

**Day 6**

**Day 7**

**Day 8**

**Day 9**

**Day 10**

# If you have been in contact\* with someone who is COVID Positive

## And you are NOT up to date on Vaccine

- Not vaccinated
- Received Pfizer and Moderna more than 5 months ago or J and J more than 2 months ago
- Not Boosted

**Day 0 =**  
Day you  
Were  
Exposed

### Stay Home for Five Days

Day 1	Day 2	Day 3	Day 4	Day 5
				
Wear a mask around others for 5 more days				
Day 6	Day 7	Day 8	Day 9	Day 10
				

## And you are Up To Date on Vaccine

- Received booster
- Received Pfizer and Moderna less than 5 months ago or J and J less than 2 months ago

### Wear Mask Around Others for 10 Days

Day 1	Day 2	Day 3	Day 4	Day 5
				
Day 6	Day 7	Day 8	Day 9	Day 10
				

**\*You are considered a Contact** if you were less than six feet from someone with COVID+ for a cumulative total of 15 minutes or more over a 24-hour period even if you were wearing a mask

# How to prevent the spread of COVID-19 at home if you test positive...

- Stay in a specific room away from other people in your home
  - Wear face mask if you don't have another room

- Cover your cough and sneezes

- Wash your hands often with soap And water for at least 20 seconds or use hand sanitizer

- Clean all surfaces that are touched often, like counters, tabletops, and doorknobs
  - Use household cleaning spray or wipes according to the lab instructions

- Monitor your symptoms carefully
  - If your symptoms get worse, call your healthcare provider immediately

- Get rest and stay hydrated

- Avoid sharing personal items with other people in your household, like dishes, towels, and bedding
- Do not EAT with others since you will be unmasked

# If you are sick, you should seek health care...

If you have a medical appointment, **call the healthcare provider** ahead of time and tell them that you have COVID-19.

For medical emergencies, call 911 and **notify the dispatch personnel** that you have COVID-19.

**Sign up for [nmnotify.org](https://nmnotify.org) phone app  
to report your positive results and help stop the  
spread of COVID**

# Help stop the spread of COVID: Sign up for nmnotify.org

1. **Enable the app** on your smart phone: apple phone and google play
2. **Contact Exposures:** Once registered, you will receive text notifications if you have come into contact with someone who is positive for COVID.
3. **Report your positives:** If you are positive for COVID you can report your positivity on the app, and people you have come into close contact with will be notified they may have come into contact with an individual who is positive.

# App is anonymous

- **The app is anonymous.** You will not know who you may have come into contact with who is positive, and they will not know who you are.
- **The information is gathered from bluetooth data on your phone.** No personal information is collected or shared
- App does not use GPS or location services that would identify your location or your movement

# Another tool to help stop the spread for our community

- **By reporting your positivity**, you help your family, friends, colleagues and community take steps to test themselves and stop the spread.

# OPTIONAL REPORTING OF HOME TESTING

<https://covid-positive-home-test.doh.nm.gov/>

## Self-Reporting Webform

English

Please report your positive home-based or self-administered COVID-19 test result to the New Mexico Department of Health here. You will need to give us personal details such as your name, date of birth, and address. You will also be asked a few additional questions about your health. Resource links are provided below. If you need help or have a question, call the COVID-19 hotline at 1-855-600-3453.

A home-based or self-administered COVID-19 test is a rapid test that you usually do yourself, and in your home. You should see for yourself the test result. Home/self COVID-19 tests always provide results in less than one hour, usually about 15 minutes.

These tests may have come from the postal service through [www.COVIDtest.gov](https://www.COVIDtest.gov) or were bought from pharmacies or online stores.

This portal is for home/self-kit COVID-19 POSITIVE test result reporting only. Do not report COVID-19 results from tests that were sent to a lab. Lab COVID tests include any swab collected at a medical clinic, CVS, Walgreens, other COVID testing center; or any test of your saliva sent to a lab for testing.

New Mexico Department of Health (NMDOH) will keep your information private.

# Guide to Mask Wearing

## MORE TO COME....

# What type of mask should I wear?

- Wear the highest quality mask that you can tolerate
- The mask should fit well
- You should be able to wear the mask consistently
- Always wear your mask around others\*

## Levels of Protection for Masks: From lowest to highest protection

**\*Helpful tip:** people often wear their mask during the day, but then take off their mask to eat around others; during lunch hour, eat on your own, or eat outside; people often get COVID during mealtimes with others

More information from CDC on Guidance for Masks:  
[Your Guide to Masks](#); [Use Masks to Slow the Spread of COVID-19](#)

# Know what kind of masks to use

Link to More information from CDC about:

[Types of Masks and Respirators:](#)

**Fit is most important: [Check that mask fits](#) snugly over your nose, mouth, and chin.**

- Check for gaps by cupping your hands around the outside edges of the mask.
- Make sure no air is flowing from the area near your eyes or from the sides of the mask.
- If the mask has a good fit, you will feel warm air come through the front of the mask and may be able to see the mask material move in and out with each breath.

## Masks that Meet a Standard

Some masks are designed and tested to ensure they perform at a consistent level. These masks are labeled to tell you what standard they meet. These masks are labeled:

- [MEETS ASTM F3502](#) 
- [MEETS WORKPLACE PERFORMANCE](#)
- [MEETS WORKPLACE PERFORMANCE PLUS](#)

These are new standards. Lists of masks that meet these standards and more information on their availability can be found on the [NIOSH Personal Protective Equipment Information \(PPE-Info\) webpage](#). These masks have markings printed on the product to indicate they are authentic.

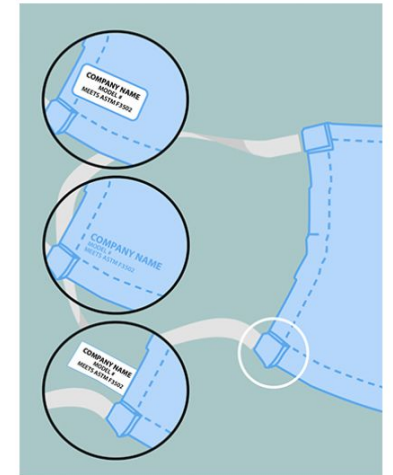

Follow manufacturer's instructions on how to wear, store, and clean or properly dispose of the mask. These should be worn according to the manufacturer's instructions without modifications.

### Wear masks that meet a standard with

- A proper fit over your nose and mouth to prevent leaks
- Multiple layers of non-woven material
- A nose wire

### Do NOT wear masks that meet a standard

- If it is hard to breathe while wearing them
- If they are wet or dirty
- With other masks or respirators
- As a replacement for NIOSH-approved [respiratory protection when required by your job](#)
